Data Science & Ethics

– *Browser Tracking* –

Exercise 1: *Firefox Add-on*

Implement a Firefox Add-on that supplies trackers with fake/random data and information that might be used for browser tracking. Test your implementation using services such as e.g. *Panoptlick* (<https://panoptlick.eff.org/>).

- due date:** 21.07.2017 (EOB)
no. of students: 2
deliverables:
1. Implementation (including source code(s))
 2. Documentation (max. 10 pages)
 3. Presentation (10 – max. 15 minutes)
